+ EMPLOYMENT

Present — Freestyle Creative
Lead Web Developer

Responsible for providing technical leadership for all client website builds. Other responsibilities include: Collaborating with the creative team and other web developers, design and build client websites that reflect modern web design trends, ensure that client websites are responsive and SEO optimized, manage web development employees and coordinate with freelance web developers.

2015-2016 — Self Employed
Freelance Web Developer

Worked as a Freelancer on various different web development projects. Primarily implementing mockups using grid frameworks and developing responsive websites using CSS3, HTML5, and JavaScript with cross-browser compatibility.

2011-2015 — GOES LLC
IT Director

Responsible for all web development, which involved building websites by working with other team members and working with PSD files provided by the designer. Responsible for installing and configuring local area networks, Windows and Macintosh computers. Diagnosed and solved problems that occurred during their operation.

+ EDUCATION

2012-2013 — Computer Information Systems
Oklahoma State University OKC

2011 — Engineering Technology
Southwestern Oklahoma State University
